Is the Senate yesterday and in the FRED, DOUGLASS RESIGNS, House the Republicans waved the bloody shirt in a mild sort of way. In the former body the Blair educational bill afforded the pretext for Mr. Van Wyck, and in the House the pension arrears bill. "It was not much of a shower."

A DEPUTATION of Presbyterians today presented Earl Aberdeen, Lord Lieutenant of Ireland, an address of welcome on behalf of the General Assembly. The address assures the government of unswerving loyalty. The assembly insists upon the maintenance of the union in its fullest integrity as essential to the peace of Ireland.

Ir will be seen from a tabulated statement elsewhere published that fourteen of the best horses of the country-the winners of eight or more races during the past year-are entered for the stake races over the Memphis Jockey Club course at the coming spring meeting. These fourteen were of the company of forty-eight whose records as to entry and time were compiled by the Sacramento Bee, and which is considered and accepted by borsemen as thoroughly reliable.

THERE is no longer room to doubt that the Standard Oil Company, the most oppressively aggressive of the monopolies of the country, is the promoter, if not the originator, of the cotton-seed oil pool, of which it controls quite three-fourths of the stock. And there is as little room for question that it means to crush the life out of all the seed-mills that have hitherto opposed it or may hereafter stand in its way. It is bearing down like an avalanche and is striking terror to the hearts of men of small capital. What can be done to break its power and prevent the ruin it threatens?

The two commercial bodies of Mobile-the Chamber of Commerce and the Cotton Exchange-took possession on Monday last of a very handsome building, in the Queen Anne style, just completed. The proportions of this handsome structure are ninety by eighty-three feet and sixty-five feet high. It is built of pressed brick, relieved by black and terra cotta entablatures, the center pediment being surmounted by a statue of the goddess of commerce, the Cotton Exchange side being marked by a crown

ficers will occur on the 7th of next September, The Legislature then chosen will meet a month later and will elect a United States Senator to publish the essays delivered before it. fill the seat now occupied by the Hon. George F. Edmunds, whose term expires in March, 1887. If Mr. Edmunds goes out of the Senate then, he probably goes out of public life forever. The chances are that he may go out. The Blaine Republicans are bitterly opposed to him and are determined if they can to punish him for his silence during the Presidential campaign in to-day presented to Representative 1884. The New York Sun says: "The result of the campaign to prevent the re-election of Senator Edmunds will be the first accurate indication of the present vitality of the Blaine cause. It only a little more than two years before the next Republican Convention will meet; and Mr. Blaine, baving finished the second volume of his great historical work, is now once more a man of leisure.

THE cholera, which prevailed to so darining an extent last year, has had the effect of stimulating the authoriies of Italy to the accomplishment of much needed sanitary work. In Naoles \$30,000,000 (\$20,000,000 to be conributed by the Italian government), are to be expended in the complete enovation of the city. One large main horoughfare will traverse the whole the poor quarters, Porto, Pendino, dereato, and Vicaria, while regular ross streets will run at fixed intervals. ome sites considered to be too unealthy will not be allowed to be ocnoied. For the large crowd of artians, laborers and their families who ill be dislodged by these changes, ew and healthy quarters will be and in the Arenaccia district beyond ne railway station. The entire drainge and sewer system in the lower part I the city will be remodeled, and will made to discharge beyond the har-The dye works and similar manuclories, the operation of which are dculated to pollute the water, will be nuired to remove beyond the city

THERE are several reasons for exeting that the tide of European imgration to this country has turned, d that during the current fiscal ar a slight gain will be made over e figures of 1884-5. In the first place, fees of commodities are low here, nesare brightening, wages are being vanced, and railway rates across the ntinent are falling to merely nomal figures. In Europe and Great itain, on the contrary, discontent is despread. So much for causes. Now to results already known. The aber of immigrants arriving at six principal ports of this country ng the seven months ending Jan-31, 1885, was 167,942. During orresponding months of 1885-86 unber was 147,927, a loss of only 00 or 12 per cent. During Janu-1888, however, the number landyas 8749, against 6021 in January, If this gain, at the rate of over is maintained until June ext, there will be reason for be-that the low tide of immigrabeen passed and a new period ms begun.

Protection for Americans Abroad-Land Pre-Emptions-Iron and Steel Industries-Notes.

Washington, March 4.-The iron and steel industries of the country were discussed before the Ways and Means Committee to-day by a delegation of the American Iron and Steel Association Among the many gen-tlemen present were B. F. Jones, chairman of the delegation and president of the American Iron and Steel Association; Joseph Wharton of Phil-Association; Joseph Wharton of Philadelphia, representing the steel rail industry; Mr. Ridgeway of Springfield, Ill., open hearth steel; James Emerson of Beaver Falls, Pa., steel consumer; Henry Whitely of Philadelphia, sheet iron; T. H. Wells of Youngstown, O., for cotton-ties and hoop iron. President Jones opened the proceedings with a brief address, protesting against the present agitaprotesting against the present agita-tion of the tariff questions, which the association was assured would be injurious to the business interests of the country. Mr. George Cope, secretary of the association, read a paper on "The Question of Tariff Revision," reciting the objections of the American Iron and Steel Association to House bill No. 5576 (the Morrison bill).

The paper recites the objections of the American Iron and Steel Association to House bill No. 5576 (the Morrison bill.) It states that the association does not despair of convincing the committee that the present tariff is not in need of general revision, and that such recision would seriously in jure the industries of the country if it should become a law. A subcommit-tee of the Ways and Means Committee of the ways and Means Commit-tee gave a hearing in the afternoon to several gentlemen – tobacco growers in Connecticut, New York and Wiscon-sin—on the subject of a proposed clause in the tariff bill relating to to-bacco. The present law provides that leaf tobacco suitable for wrappers, of which it requires more than 100 leaves to weigh a pound, shall pay a duty of seventy-five cents. The arguments made before the subcomm tree were to the effect that the limitation of 100 leaves to the pound should be omitted, and that the following duty should be imposed on all leaf tobacco, commercially known as wrappers, seventy-five cents per pound, if not stemmed, and \$1 a pound if stemmed.

The night session was devoted to a discussion of arrangements for shipping. The Interstate Shipping Company endeavor to make an arrangement for dividing the goods, shipping to different points and settling with the shippers. Capt. Morton favored the organization of a State Horticul-tural Society. No united action was desired. The effort was to impress tivate turnips, peas, beans, asparagus Irish potatoes, cabbage, sweet pota

toes, cantelopes and tomatoes.

The thanks of the society were tendered Col. McWhirter for his offer to Adjourned till 8 o'clock to-morrow

morning. The Vine-Growers' Bill.

Washington, March 4.—The bill prepared by the State Viticultural Commission of California and the National Vine-Growers' Association of Green, who is a vine-grower in North Carolina, with a request that he intro-duce at the earliest opportunity the

Land Pre-Emptions,

Washington, March 4.—The House Committee on Public Lands will report in some bill a provision repealing the pre-emption and timber culture laws. As a substitute for this provision, Mr. Anderson of Kansas will offer an amendment creating a com-mission of three, who shall "make a thorough examination of the public lands with respect to their capability and use for agricultural, grazing, timber, arborticultural, mining or other industrial purposes," and report the approximate area of such classes of lands; and also report a code of proposed laws for the protection, disposi-tion and utilization of the public domain. The commission is to report and cease in January, 1887.

Nominations.

Washington, March 4.—Jas. C. Matthews of New York, to be Recorder of Deeds in the District of Columbia, vice Frederick Douglass,

Postmasters — Wm. H. Gillespie Rostmasters — wm. H. Gillespie, Ilion, O.; D. W. Cooper, Bellaire, O.; Wm. H. Woodall, Huntsville, Tex.; Jos. F. Snyder, LaGrange, Ind.; Wil-bur F. Goddard, Lena, Ill.; Francis C. Sharp, Oconto, Wis.; Thos. Norton, Nebraska City, Neb.; Thos. J. Hud son, Winterset, Ia.

Protecting American Citizens. WASHINGTON, March 4.-The House Committee on Foreign Affairs to day agreed to a favorable report on Mr. Hitt's bill to provide for the exercise of the jurisdiction conferred upon the United States in places out of their territory and dominion. As stated in the report the bill is intended to provide a more perfect system of courts and to prescribe a more complete, pre-cise and harmonious body of law for the protection of Americans residing in various Pagan and Mahomedan countries. It repeals forty-eight sections of the Revised Statutes, and substitutes provisions intended to ameliorate the condition of our citizens in these countries.

California Lands

Secretary Lamar has requested the Attorney-General to institute suits in the name of the United States to ob tain the cancellation of the patent issued to the State of California in 1869 under the swamp-land act for the lands covered by Lakes Kern and Buena Vista. The Secretary, in Lis letter, says:

'It appears that each of these lakes | Jones, a torney. is a large body of water, permanent in character. The two have an aggregate of about forty-four square miles. They are capable of being navigated, and, without interstate or foreign connection, while not navigable ally adopted an agreement which dif-waters of the United States, they are clearly navigable waters of the State of California. Therefore, when the United States issued patents for the arbitration.

THE NEGRO LEADER'S LETTER of no efficacy whatever. The lakes are owned by J. B. Haggin, the original purchaser from the State of ornia, who now proposes to drain the lakes for his own purpose and to the great injury of the surrounding d owners who use their water for

OFFICE OF THE RECORDER OF DEEDS, DISPARCT OF COLUMBIA.
WASHINGTON, D. C., January 5, 1886 the Hen Grover Cleveland, President of the United States:

Sin—In accordance with a purpose spressed to you at the Executive massion several weeks ago, I now very spectfully beg leave to tender my esignation of the office of Recorder of seds for the District of Columbia, the me to take effect on the first day of March next, or as soon the eafter as it shall be your pleasure to appoint my successor. In making this communi-cation I cannot withhold the expressien of grateful appreciation of your kind consideration in allowing me to choose both the time and the manner of my retirement from the office I have so long held subject to your pleasure. Very respectfully yours, FREDERICK DOUGLASS.

The Ends Bill. Washington, March 4.-The mi-nority report of the Committee on Commerce on the Eads bill was submitted to the House to-day. It doubts the power of Congress under the constitution to grant a charter to a foreign corporation, calls attention to the discorporation, can's attention to the dis-crimination in favor of Mexico and against the United States, and con-cludes as follows: "Was Congress before ever asked for such reckless legislation as this? While we have pointed out some of the many objec-tions we have to the pressure of the tions we have to the passage of the bill, our enumeration is by no means exhausted, and we will seek other oc-casions to present them to the House We regard this proposition as one granting a subsidy that may, and possibly will, take from the public Treasury \$37,500,000 for the benefit of a private corporation, located or op-erated exclusively in a foreign country, without any corresponding benefit to our country or people.

The Chinese in the West.

Washington, March 4. - Rumors were current here to-day to the effect that the Chinese Ministerhad received instructions from his government to demand from the United States the total disayowal of the recent outrages against Chinese residents in the Western States and Territories, the condi-tion, punishment capitally, if killing could be proved against individuals, and a pecuniary indemnity to the suf-ferers for their losses; and that, if the United States refused to comply with the demand, the President was to be over the center gable emblematic of the reign of King Cotton. This building marks an era in the post-bellum history of Mobile, and is an augury of history of Mobile, and is an augury of their spoke on the vegetables to be then spoke on the vegetables to be then spoke on the vegetables to be their spoke of the vegetables to be their spoke of the vegetables to be their spoke of the vegetables to be the vegetables to be their spoke of the vegetables to be the vegetables to be their spoke of the vegetables to be the vegetables a representative of the Associated Press that while he has information that China, and especially the province of Canton, the home of a percentage of the Chinese of the Pacific slope, is greatly excited over the outrages, and that retaliation has, in some instances, been threatened by the excited people, he has received no instructions to make any formal de-mands upon this government, neither has be any information that such demands are contemplated.

HIS ASHES TO BE SCATTERED. Mr. Cohn's Body Is Cremated at Fresh Pond, Long Island.

The New York World: A hearse, drawn by two black horses, slowly made its way yesterday afternoon over the frozen road that leads up the hill, on the top of which Mount Olivet Crematory stands, near Fresh Pond, Long Island. A score of gentlemen, wearing **b**ll silk hats and black gloves, followed on foot. It was a weary climb.

When the summit was reached the hearse waited until the gentlemen came up. They opened the door, and tenderly lifted a plain pine coffin to their shoulders and carried it into the white marble chapel behind the retorts of the crematory. The coffin held the body of Charles Cohn, for many years editor of the Staats-Zeitung. Mr. Cohn died two weeks ago, and his last wish was that his body should be burned. There were no services. The coffin was placed on a row of chairs and the lid unscrewed. The retorts had been fired up the evening before, and the clay covers were red hot. President Augustus Cobb of the Crematory Society, of which Mr. Cohn was a member, had charge of the ceremonies. The body was taken to an adjoining room, where it was wrapped in a sheet of coarse linen soaked in alum. It was then put in a coffin-shaped cradle made of iron bars. The ponderous door was pushed up, and quickly the cradle was slid into the hot retort; there was a puff of snoke as the sheet crackled, and the door was closed again. For several minutes the friends remained. Then clouds of smoke rose from the tall chimney and were dispersed by the wind. They were the gases from the body as it was slowly reduced to ashes. At 5:30 o'clock, more than two hours after the body was placed in the retort, the in-cineration was complete. When the retort is cooled sufficiently the ashes will be gathered and inclosed in a ves sel which will be sent to Dr. Fraenkel, who was Mr. Cohn's lifelong friend and is his executor. As Mr. Cohn pro vided in his will, they will be scattered to the winds to mingle with the dust.

HAVE used Tongaline in two cases of neuralgia and one of rheumatism, and obtained almost instant relief. Recommend its use in all such cases.

MEMPHIS, TENN., FRIDAY, MARCH 5, 1886.

MEETING OF THE HORTICULA TURAL SOCIETY.

An Address By Commissioner Me

Whirter-Other Papers of

Interest Read.

[SPECIAL TO THE APPRAIL.] HUMBOLDT, TENN., March 4. The West Tennessee Horticultural Society met here this afternoon. There is only a light attendance, and no representative from Shelby county. Several of the leading cultivators of strawberries are here, and Commissioner McWhirter is one of the prominent men who are

participating.

Mr. McFarland welcomed the society on behalf of the people of Humboldt. He made an effective and appropriate He made an effective and appropriate speech, saying that better houses, finer cattle and more prosperity were the results of the small fruit industry in this portion of the country. J. C. Sharp of Poughkeepsie, N.Y., replied, thanking the people of Humboldt for their hospitality. He also gave some good advice to the horticulturists.

Visiting horticulturists were invited to perfective to it the presentings.

to participate in the proceedings.

President Merwin's address was listened to with marked attention. It had a good deal to say about the dis-tribution of the crop, and also about the many insects that destroy berries. Careful distribution and successful refrigeration were the main points for consideration.

At the request of several members Commissioner McWhirter gave a talk on strawberries and small fruits, and referred to the reputation made for the strawberries produced in this por-tion of the State. He advised the people to secure more extensive markets, not confining their shipments to one point where the market could become glutted. He said the society had added greatly to the agricultural prosperity of the State. He suggested the establishment of a canning estab-lishment in Humboldt, where the berries could be canned after the good

demand had ceased, late in the season, J. W. Rosamon spoke of the cost of raising strawberries and the necessity for a canning-house. He said straw-berries could be raised and delivered in Humboldt at 3 cents per quart. He spoke of the markets and the shipping arrangements, and was pleased at the increased facilities for rapid transit to the markets,

President Merwin was re-elected; J. C. Sharp was elected vice-president, George Ferrell secretary and W. R. Rea treasurer. Treasurer Rea read a paper on the distribution of crops. He favored a plan of co-operation and an understanding to ship only half of the crop to Chicago, dividing the balance and sending some as far east as Boston and New York.

BIRMINGHAM, ALA. Neg o Miner Accidentally Killed Question of Right,

[SPECIAL TO THE APPEAL.] BIRMINGHAM, ALA., March negro miner named Hannibal Williams was accidentally killed this morning at the Morris Iron Ore Mills, some six miles below town. He was working a cut on the outcrop when a lump of ore, estimated to weigh about five tons, fell on him, crushing him horribly. It is supposed the thawing of the ground about the ore caused it

A disputed point in the matter of the Birmingham and Pratt Mines Street Railway Company's right of way was settled to-night by the City Council granting the use of Morris avenue for two squares in the heart of the city. There was some opposition to this grant, as it appropriates valuable street space in front of the Union depot, Morris avenue being considered narrower than the other streets.

The money changers have been made a trifle uncomfortable for the last day or two by the appearance of a number of clever counterfeit half dollars in town; even bank tellers have been taken in by them.

SCHOONER OVERDUE.

The Virginia Dare Given Up as Lost. GLOUCESTER, MASS., March 4.—The schooner Virginia Dare and crew have been given up at lost. The Dare sailed for the Grand Banks halibut grounds December 24th, since when she has not been heard from. She undoubtedly foundered in the great gale the week after her departure. She carried a crew of fourteen, named: Fabian Nolan, master, who leaves a widow and three children; Elijah Nolan, his brother, single; Joseph McDonald, D. McKennon, Daniel McDona'd and Micheal Mc-Lean, all of Prince Edward's Island; Stephen Howard, Daniel McMastern and Angus McKinnon of Cape Breton; Fred O Springer of Nova Scotia, Leverett Tucker of New Brunswick and Wm. Roper and James Murphy of Guysboro, Nova Scotia, and James Markie of Canso, N. S. With the loss of this crew seventy-five men have found watery graves from this poor found watery graves from this port since Christmas.

MONIEAGLE ASSEMBLY. Distinguished Speakers Expected to Be Present.

NASHVILLE, TENN., March 4.—The programme of the Monteagle Assembly for the summer school in the Cumberland mountains, from June to September, is issued. Among the distinguished lecturers from other States are mentioned Prof. McGarvey of Kentucky University, Mrs. Emma P. Ewing, dean of the School of Domestic Economy in the Iowa Agricultural College; Charles Louis Lous of Kentucky, Dr. J. H. Vincent of New Jersey, Dr. Palmer of New Orleans, Frank Beard, the New York caricaturist; the Rev. Sam Jones of Georgia and probably ex-Gov. St. John of Kausas and Dr. Talmage of Brooklyn. I. A. Wordez, D. D., of Philadelphia, will have charge of the Sunday school normal work.

In takes over 100 pairs of gloves to assuage the grief of the Brooklyn officials over the death of an alderman, whose life might have been saved by a single bottle of Dr. Bull's Cough Syrup.

The War Goes Brave y On. Nuw York, March 4. - There is practically no change in the situation ain Line had made a cut of 65 per cent from the tariff rate in grades of freight at \$1 40 and under. The rumor

lards covered by such waters it ex-coded its powers. Its patents con-yell on title because it had none to the Gould system, consequently the Southern Pamife road calls upon the Texas Pacific to make good the agree-

THE STREET-CAR STRIKE.

GENERAL TIE UP LIKELY TO-DAY AT NEW YORK.

The Brivers Union Adopt a Resolution to That I feet at a Mass Meeting.

A mass meeting of the car drivers of the various lines of the city who organized as the Empire Protective Association, and who are seeking to get the same terms for the drivers of the Dry Dock, East Broadway and Battery lines as have been granted to several other lines, was held to-night. After nearly forty-eight hours continnous session, the committee re-ported to the meeting that they con-

sidered a general "tie up" at 2 o'clock to-morrow morning as the best means of solving the difficulty, and the motion being put and carried, will be put in force to-morrow (Friday) morning. The Sixth avenue line drivers, after they tie up, will not again go to work unless they get \$2.50 a day, the same as the Eighth avenue line, and the Seventh avenue and Broadway drivers are of the same opinion. It is an open secret that the employes of the elevated rail-roads are waiting an order to shut down till matters are satisfactorily settled. The officers of the First Brigade, First Division National Guards, State of New York, were notified to hold their men in readiness in case of trouble. The car drivers of the striking cross-town lines met tonight. The meeting was secret, but it was learned that addresses were made urging the men to hold together. Said one of the officers to a reporter: "It took 1200 policemen to run one ear to-day. Does that look encouraging for the companies? We have the power and will decide whether or not to tie up all the surface roads." Another officer said that not only the surface roads, but the elevated roads and the Brooklyn and Jersey City ferries would stop running to-night. P. J. Walsh, who claims to be an insurance agent, was arrested this evening on complaint of a car driver of the Broadway line. He was charged with representing himself as one of the Executive Committee of the Empire Protective Association, and using his pretended authority in ordering a number of drivers on the Broadway road to tie up their horses and quit
work when they reached the depot.
Walsh boarded the cars between
Forty-second and Forty-seventh
streets, and gave the instructions,
which he said came from the association. The consequence was that a number of cars were tied up between 4:15 and 4:45 o'clock p.m., when it was discovered that Walsh was not what he pretended to be, and he was arrested. The Dry Dock Company held a meeting to-night at which the superintendent was authorized to employ competent men on the terms de manded by the strikers, and to insure them protection and permanent employment; that no pains or expense will be spare! to keep the cars going, and that the Attorney-General and the Railroad Commissioners be notified of that fact. The District Attorney says
